

# KENDALL IS ELECTED BY 700 TO 1,000, RETURNS INDICATE REPUBLICANS MAKE GAINS AND MAY CONTROL NEXT CONGRESS

## STERLING SUPPORTERS MAKE CLAIM OF SOLDIER VOTE TO BRING THE FINAL DECISION

Kendall Carries Somerset County By Majority Close to 2,500.

### STERLING CUT IN GREENE

Full Returns in Fayette County Awaited to Determine Which Shall Sit in Next Congress, but Little Doubt exists as to Kendall's Victory.

With 75 out of 105 precincts in Fayette county at noon today giving Bruce F. Sterling a lead of only 502 over Samuel A. Kendall, the Republican candidate for Congress in the 23rd district; with practically complete returns in Somerset county giving the Republican candidate close to 2,500 majority and with Mr. Sterling's lead in Greene county cut to 975 the election of Mr. Kendall was claimed by his supporters with little possibility of the lead being cut below the former figure.

At the same hour Mr. Sterling claimed, with one district missing, a majority of 1,117 in Fayette county. On the strength of this Democratic leader asserted that the contest would be so close as to require the soldier vote to decide.

At Republican headquarters it was said the 31 missing districts would not materially change the result. All are small. It was said Sterling's majority in the county might be boosted 200, not more.

The remainder of the ticket, state and county, was carried by the Republicans by large majorities.

With only two or three small districts missing at noon in Somerset county Samuel A. Kendall, Republican, was leading Bruce F. Sterling, Democrat, for Congress in the 23rd district by approximately 2,400. It was said the return from these would not materially change the result.

Returns from 40 out of 56 precincts in the county showed the following in the congressional fight:

Kendall 4,200  
Sterling 2,400

Kendall's lead 1,800

At that hour Mr. Kendall declared that his majority will not fall below 2,400 and that it may be 2,500.

Complete unofficial returns from Greene county give Sterling a lead of 975 over Kendall.

### DEMOCRATS SPEND MONEY LAVISHLY ON CIVIL TWP. NO. 2

But Efforts to Make Even Fair Showing Fail Utterly; Sterling Heavy Loser There.

Two years ago Bruce F. Sterling carried Connellsville township No. 2 by 63 votes. Something radically different happened yesterday. Mr. Sterling polled 46 votes; his opponent, Samuel A. Kendall, 91. This was despite lavish expenditure of money by Democratic leaders who worked hard in the Swagertown hill district, but anywhere else in Fayette county the township, belongs a lot of credit for the vote rolled up for Kendall and the remainder of the Republican ticket.

The whole Republican ticket went through with flying colors. Senator Sprout received 104 to 31 cast for Bonniwell for governor. Senator William E. Crow received 111 and his opponent, Rhodes, 28 for state senate. A fine vote, 106, was polled for John W. Kephart for judge of the Supreme court. Thus it went the whole way down the list. The good roads amendment was approved 94 to 3.

### HENRY HABERER WOUNDED

Broad Ford Boy Doing Well in Base Hospital, Letter Says.

Private Henry Haberer is wounded and in base hospital No. 50 in France, according to two letters received yesterday by his father, Richard Haberer of Broad Ford. One letter written on October 3 by the wounded soldier stated that he was shot in the left leg. Writing on October 16 Haberer said he was getting along nicely and was able to walk around a little with the aid of crutches.

Haberer writes that he has not seen many of the boys that he knows from around home, not even his brother, Private Richard Haberer of Company I, 11th Infantry, who left for France some months before his brother, Henry, Richard Haberer left for duty overseas on February 23 and Henry on May 23. The latter is a member of Company F, 47th Infantry. Both soldiers were drafted and received their military training at Camp Lee.

## NEW YORK WORLD ADMITS DEFEAT OF DEMOCRATS

General Survey of the Situation Shows Result Still in Doubt.

### SOME OLD TIMERS GONE

Indications Are That Champ Clark Will Lose in Missouri; Governor Walsh Defeats Senator Weeks; Senator Lewis, Democratic Whip, is Out.

By Associated Press.

NEW YORK, Nov. 6.—Both the New York Times and the New York World this morning concede that the Republican party will control the next Congress.

The Times claims a majority of four in the Senate and 19 in the House.

NEW YORK, Nov. 6.—Early today, more than 24 hours after yesterday's balloting began, it was not apparent whether the Democrats or Republicans would control the next Congress.

Party leaders on both sides predicted they would have substantial working majorities but the returns showed between 50 and 75 congressional districts still unreported and the lineup so close that the scales might easily be turned in favor of either party.

The governorship of New York was surrounded with the same uncertainty.

The contest between Governor Whitman and his Democratic opponent, Alfred E. Smith, was so close that it appeared the soldier vote would settle it.

Some well known figures in public life will be retired or at least have close shaves by yesterday's voting.

Prominent among them are Speaker Champ Clark of the House of Representatives, who last night was reported beaten by 400 votes but today was running very close to his opponent; Senator Weeks, junior Republican senator from Massachusetts, defeated by former Governor Walsh, Democrat; Senator Lewis, Illinois, the Democratic whip, defeated by Representative McMillin of Chicago; Senator Salisbury of Delaware, president pro tem of the Senate, defeated by former Senator Ball, Republican, and Representative Sherry, Democrat, of Kentucky, chairman of the appropriations committee.

West Virginia with little more than half heard from showed the probable election of Davis Elkins, Republican, to the Senate, but the vote in congressional districts was very close.

In Pennsylvania the Republican ticket was overwhelmingly elected.

With 374 elections reported and 61 congressional districts in doubt 24 Republicans won seats now occupied by Democrats and the Democrats gained seats from eight Republicans and one Socialist. The Socialists made up their loss to the Democrats by taking a place from the Republicans.

The Republicans made a net gain of 15 seats on the returns thus far received while the Democrats took eight places from the Republicans. The Socialist representation remains the same, one seat.

### MISS GRACE BROOKS WEDS

At Same Time Announcement is Made of Engagement of Sister, Mildred.

Mr. and Mrs. W. O. Brooks of Murphy's Siding announce the marriage of their daughter, Miss Grace Brooks, to Robert Rogers McGiffin of Scottsdale, and the engagement of their daughter, Miss Mildred Brooks, to Robert Rogers McGiffin of Scottsdale, now with base hospital No. 81, in France.

The Brooks-Harkness nuptials were solemnized Friday, November 1, at the parsonage of the Methodist Episcopal church in Greensburg, with Rev. Homer D. Whitfield, the pastor, officiating.

Following the ceremony Mr. and Mrs. Harkness left for Vandergrift to reside, the former being located there as a stationary engineer; Mrs. Harkness and her sister, Miss Mildred Brooks, are widely and favorably known in this community. They were both graduated from the Memorial hospital at Mount Pleasant, members of the class of 1918, and previous to her marriage Mrs. Harkness was night superintendent at that hospital. Her sister is engaged as a trained nurse and will continue with her work until the return of her fiancé from the war.

At Meyersdale Hospital.

At the present 52 patients are being treated at the emergency hospital at Meyersdale. Since the opening of the hospital a little over a week ago, there have been five deaths. During the last few days fewer cases have been reported, showing that conditions are getting better.

## HUNDRED FORTY GERMAN DIVISIONS IN RETREAT, PURSUED BY THE ALLIES

By Associated Press.

PARIS, Nov. 6.—Enemy forces are in full retreat on the front of 75 miles from Valenciennes to the Meuse. They are being pressed hotly by the Allies.

British troops have crossed the Belgian frontier east of Valenciennes and have stormed the Mormal forest. Farther south the French are within eight miles of the great Mons-Vervins-LaCapelle road, the main artery on the central part of the German front in France. They are separated from it only by Novion forest.

General Guillaumat and General Gouraud are advancing on the southern side of the salient and the American army threatens the retreat of the German forces, for it is only nine miles from Sedan. The Americans have carried their line past Dun-sur-Meuse.

As the result of the latest battle in which the Allies have soundly beaten 140 German divisions hundreds of villages have been freed and thousands of prisoners have been captured. The enemy's position which was bad before now may be said to be desperate.

## RAPID ADVANCEMENT COMES TO A YOUNG MT. PLEASANT SOLDIER

Howard C. Braddock Made Captain of Supply Company of 110th and Also Officially Commended.

Specialist to the Courier.

MOUNT PLEASANT, Nov. 6.—Few young men in the military service have made more rapid progress in rank than Howard C. Braddock, the 28-year-old son of James S. Braddock, owner of Mount Pleasant's best known citizens. From a letter just received by Mr. Braddock he has learned of the promotion of his son to the captaincy of the Supply Company of the 110th Infantry, being the third advancement for the young man since he became a member of the famous regiment.

After two years military training at Pennsylvania State College Captain Braddock enlisted in the Supply Company of the 10th Regiment shortly before the call for mobilization came. On May 5, 1917, he was advanced to second lieutenant, and on March 5, 1918, while the regiment was still in training at Camp Hancock he was made first lieutenant, in which capacity he went overseas with the regiment. When Captain

Bryce of the Supply Company was assigned to the Headquarters Company of the 110th in July, Lieutenant Braddock was placed in command of the Supply Company. Since July 14, when the active service of the 110th at the front began, Lieutenant Braddock has been constantly on duty, moving from point to point as the regiment changed positions, except 11 days during which relief was given him.

In recognition of his splendid services he was promoted to captain in September and was officially commended as having given the best efficiency of any supply company in the 28th Division.

Captain Braddock comes of a military family, his great-grand grandfather, John Braddock, his great-grand father, Francis Braddock, John Norton Braddock and Grandfather Braddock, having served in the different wars from the Revolution to the Civil War.

## HERSHEL CARSON KILLED

Delbert Fike, Uniontown, Also Dies in Action; Others Wounded.

Hershel Carson, a nephew of Mrs. Estella Ellenberger of 319 North Pittsburgh street, Connellsville, and a member of Company C, 319th Infantry, was killed in action in France September 29, according to word received here. Carson formerly lived at McKeesport.

Delbert Fike, son of Milford Fike, 75 Whitman avenue, Uniontown, and a member of Company A, 319th Infantry, was killed October 11, a message received there today said. He was among the first 15 draftees to leave Uniontown.

Frank Zavorie, Alfred Davis and another member of Company D named Sinecock are in a base hospital in Paris, a letter from Zavorie says.

### No Contest at All Here Outside of the Kendall-Sterling Fight.

### STERLING MAJORITY 397

Democratic Candidate is Winner in Every Ward but First and Second; West Side Rolls Up Big Vote for Him; Assemblymen Easy Victors.

With the exception of Samuel A. Kendall, for representative in Congress from the 23rd district, the entire Republican ticket carried in Connellsville yesterday. Sterling, the Democratic candidate for representative, had a plurality over Kendall of 397 votes.

Outside of the Kendall-Sterling race there was no contest on in the city. Sterling carried five of the seven wards, Kendall leading him in the First and Second. In the First ward Kendall had a majority of 78 and in the Second the Republican candidate won out by the narrow margin of seven votes.

In the Third, Fourth and Fifth wards Sterling ran ahead with majorities of 56, 19 and 40 respectively. On the West Side a heavy vote was polled for Sterling, in both the Sixth and Seventh. In the Sixth 233 ballots were cast for the Democratic candidate against 33 for Kendall. In the Seventh ward Sterling had a plurality of 166, there being 210 votes cast for him and 44 for Kendall.

In the last election Sterling had a plurality of only 59 votes in the city. His gain this time was due to the heavy vote he received on the West Side.

In the election of 1916, the Seventh ward returned a plurality of 66 votes against Sterling. Yesterday the plurality given him in that ward exceeded the total vote he received in 1916. His vote at the last election totaled 103 and the plurality given him yesterday numbered 166.

In the Sixth ward also, the plurality returned for Sterling exceeded the total vote he received there in 1916 when he won in the ward by 61 votes. His plurality yesterday was 209 in that ward, showing a gain of 140 votes in his plurality.

Sterling also gained over his 1916 plurality in the Third ward. That year he received 29 votes over his opponent and yesterday his plurality totaled 56. In the Fourth ward, where he had a plurality of one vote in 1916 he beat Kendall yesterday by 19 votes.

In the Fifth ward, however, his plurality fell down. In 1916 he received 45 votes over his opponent and yesterday his plurality fell to 40.

Sterling's plurality in this city was offset, however, by a defeat in Uniontown, Kendall carrying Sterling's home city by more than 300 votes.

The remainder of the Republican ticket carried every ward in the city. William C. Sprout, for governor, easily outdistanced Eugene Bonniwell, the Democratic candidate and Edward E. Deideman, running for lieutenant governor, had practically the same plurality over J. Washington Logue, his opponent.

The Republican candidates for Congress-at-large polled a heavy vote. William E. Crow carried every ward by large pluralities for the state senate.

The Republican candidates for assembly all ran strong, with the Democratic ticket getting a weak vote in most of the city wards. Ernest R. Kooser, Russell B. McIntyre and Duncan Sinclair, all Republican candidates, easily won out here.

For judge of the Supreme court, John W. Kephart carried all the city wards with a heavy vote.

For judge of the Superior court, William D. Porter won out in Connellsville over Stephen H. Husellon. In the seven city wards Porter polled 651 votes against 338 for Husellon, a plurality of 313 votes.

Amendment No. 1 to the constitution also received a majority vote in every ward.

Mount Pleasant Improves.

MOUNT PLEASANT, Nov. 6.—Still a few patients are being brought to the emergency hospital for treatment for Spanish influenza. The disease seems to be getting under control. Physicians are not as busy as they had been.

Victim of Influenza.

Joseph Sulzner, about 50 years old, died last night at the emergency hospital at Dawson of influenza-pneumonia. The body was removed to Funeral Director W. H. Parkhill's parlors

## WHAT MAY PROVE DECISIVE ACTION NOW IN PROGRESS

Is in Two Sections—Holland to Metz and Along the Meuse Sector.

## LATTER MOST IMPORTANT

Great Fear of the Germans Has Been That Allies Will Demolish the Meuse Positions and Make Untenable the Greater Part of the Western Front.

By Associated Press.  
PARIS, Nov. 5.—A battle which is believed here to be decisive is now going on. It is being waged in two sections. In the north the blow delivered by the British armies of Generals Horne, Byng and Rawlinson and by the French under General Debeney is a threat leveled at one of the flanks of the vast pocket formed by the German lines from Holland to Metz.

The object of this offensive is to drive dangerous wedges either north of the Sambre in the direction of Mons or south of the river in the direction of Arras and Valenciennes. The result may be a complete retreat of the German armies in Belgium or those between the Oise and the Aisne. Excellent results have been realized so far. The Sambre river and canal have been crossed. This was the last line of resistance west of the frontier which soon may be reached in that region according to the latest information. The Allies advance continues, notwithstanding the desperate resistance by the enemy.

The second section of the attack is being conducted by Generals Gouraud and Liggett on the Meuse. This is the great strategic offensive which the Germans have always feared and which they sought to make impossible by the storming of Verdun in 1916. The aim of the Franco-American offensive is to pinch off the whole pocket. That is, less than eight miles from Luxembourg, northwest of Morten, the great strategic railroad running between Tionville, Sedan and Metz. Even better, the opening of a fresh attack by the Americans on the east bank of the Meuse may bring them into the Montmedy-Longvion region. This may mean not only the cutting of railroads but making it impossible for the enemy to form upon the Meuse line because that front could no longer be joined up with that of Tionville.

## CALL FOR 18,000

General Crowder Wants Limited Service Men for Enlistment Nov. 25.  
By Associated Press.  
WASHINGTON, Nov. 5.—Provost Marshal General Crowder today called for 18,000 draft registrants physically qualified for limited service to enlist for camp between November 25 and 27. Voluntary enlistment will be accepted until November 20. A variety of trades and occupations are mentioned in the call and 48 states are asked to furnish the necessary number.

## GERMANY MUST APPLY TO FOCH FOR ARMISTICE

By Associated Press.  
LONDON, via Montreal, Nov. 5.—The Allies have decided that Germany must apply to Marshal Foch, the Allied commander in chief, for an armistice. Premier Lloyd George stated in the House of Commons today.

WASHINGTON, Nov. 5.—The terms of the armistice under which Germany has an opportunity to end the war are supposed to be under consideration at Berlin. These were completed and signed by the Allied and American plenipotentiaries at Versailles yesterday and forwarded to the German government. It is authoritatively stated that the terms, which have not yet been given out for publication, follow closely those under which Austria-Hungary surrendered yesterday and passed out of the war, leaving Germany to stand alone against the world.

The impression prevails in diplomatic circles that the reply of Germany may be forthcoming within the next 24 hours. Opinion is divided as to the character of the answer, some observers of the situation predicting the acceptance by Germany of matters how hard the terms may appear to be. Others, inclining to the belief that, if the military wing of the German government still retains any considerable influence with the present government, the armistice will be refused and an effort made through further fighting to secure easier stipulations.

The Generations of Women.  
For three generations women of this country have used and recommended to their children and the children's children the use of that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, until today it is recognized everywhere as the standard remedy for woman's ills. It contains no narcotics or harmful drugs; is made from roots and herbs of the field under the most sanitary conditions, and any woman suffering from such ailments should be sure to give it a trial.

One New "Flu" Case.  
Only one new patient was admitted to the emergency hospital in the Macabee building yesterday. Five were discharged. There were no deaths over night.

## AMERICANS FACE BITTER FIGHTING ON MEUSE FRONT

By Associated Press.  
WITH THE AMERICAN ARMY ON THE MEUSE FRONT, Nov. 5, (1:15 P. M.)—Bitter fighting is taking place today along the Meuse river. American patrols again have succeeded in crossing the river at Brioules on a pontoon bridge constructed under shell fire.

At other points along the front the Americans were reconnoitering other crossings. The Germans have blown up the bridge across the Meuse between Lanchville on the west bank and the important town of Stenay on the east bank.

After the pontoon bridge at Brioules had been constructed the Americans threw a second bridge across the Meuse at Chery-le-Petit and began developing a new line on the heavily wooded and very difficult ground east of the river between Chery and Brioules, a two and one-half mile front. The town of Pouilly, in the bend of the Meuse northwest of Stenay, was captured by the Americans operating west of the Meuse. The west bank of the river is now held in its entirety as far north as Pouilly.

The troops which crossed to the east bank of the Meuse found their advance opposed by bitter machine gun and artillery fire. This was overcome, however, and the Americans are making steady progress. The village of Beaumont, directly west of Pouilly, has been taken by the forces which advanced from the heights which they held before the town. The important town of Stenay across the Meuse to the southeast is now half surrounded.

AUSTRIAN PRISONERS OF  
ITALIANS 500,000.  
WASHINGTON, Nov. 5.—Austrian prisoners captured by the Italians before the armistice took effect yesterday are estimated now at half a million and the booty taken includes 250,000 horses.

HOUSE SCHEME TO SAVE SELF.  
LONDON, Nov. 5.—Emperor William has ordered that 60 imperial palaces, including the famous palace of Sanssouci, be converted into hospitals and recreation homes for invalids, according to a Copenhagen dispatch to the Exchange Telegraph company.

The palace of Sanssouci stands in the park at Potsdam. The building was erected in 1745 by Frederick the Great.

LEQUESNOY CITADEL  
FALLS BEFORE BRITISH.  
LONDON, Nov. 5.—British troops in the offensive southeast of Valenciennes have captured the fortified town of Lequesnoy, after having completely surrounded it. Field Marshal Haig announced today. The entire garrison of more than 1,000 men was taken with the citadel.

Mrs. Mary Weaver, clerk in the ladies' ready-to-wear department at Kiback's store is ill of influenza at her room in North Pittsburg street. She was taken ill last week.

Lindley Newcomer, a veteran of the Civil War, is very ill at the home of his son-in-law, H. E. Penn in North Arch street.

Mr. and Mrs. W. F. Vance have returned to Harrisburg after accompanying the body of the former's brother home from Elizabethtown.

Miss Josephine McCullough, sister of Mrs. J. Clyde Whiteley of this city, is ill with pneumonia at Scotland. She contracted the disease while nursing at the emergency hospital. Her mother, Mrs. Joseph McCullough, has returned from a visit with friends in Unklesburg.

SOCIETY.  
Mrs. Gertrude Storer of Brownsville, has announced the engagement of her daughter, Miss Blanche Lillian Storer to W. Louis Meese, son of Mr. and Mrs. Thomas Meese of Brownsville.

Rev. Homer D. Whitfield, pastor of the Methodist Episcopal church of Greensburg, officiated at the marriage of Miss Sarah Belle Lunn, and Buren R. Shields, son of Mrs. Emma J. Shields of Youngstown, O., solemnized yesterday morning at 11 o'clock at the church parsonage. Mr. and Mrs. Shields motored from here to Greensburg, Mr. and Mrs. A. C. White of this city accompanying them.

Miss Jenna Belle Sullivan and Lawrence H. McCullough, a well known young couple of Connelleville, eloped to Cumberland Saturday, returning to Connelleville on Sunday. The bride is a daughter of Mrs. J. H. McCoy and is a stenographer for William Rogers, superintendent of line-construction for the West Penn Railways company. The bridegroom is employed by the Connelleville Construction company.

Miss Maude Weaver, daughter of Mr. and Mrs. W. S. Weaver of South Connelleville, and Lieut. Edward H. Miller, son of Fred H. Miller of Pittsburgh, were quietly married today at noon at the home of the bride.

Rev. G. L. C. Richardson, pastor of the First Methodist Episcopal church, officiated. Only the immediate members of the two families witnessed the ceremony. The bride wore an attractive gown of white georgette crepe, and her maid of honor, Miss Lenora Miller, a sister of the bridegroom, appeared in a gown of pink georgette crepe. The bride is a stenographer at the First National bank and is widely and favorably known. Lieutenant Miller is in the aviation service, stationed at Wilbur Wright field, Dayton, O. Lieutenant and Mrs. Miller left for a wedding trip to points of interest. At the expiration of his furlough the bridegroom will return to the service and Mrs. Miller will reside with her parents until the close of the war.

Card of Thanks.  
We tender our sincere thanks to our friends, neighbors and all others for the many acts of kindness and sincere sympathy shown us during the sickness, death and funeral of our dear daughter and sister, Mrs. Florence Addis Anderson, particularly for the floral tributes, use of cars and many other kind acts, all of which were most gratefully appreciated by us. E. M. Addis and daughter—Adv.

## WASTE OF SUGAR

THE following bulletin was among the most successful and effective bits of conservation propaganda at the New York Food Show last month. It was put out by the National Sugar Refining Company of New Jersey:

"One hundred million cups of coffee are consumed daily in United States.  
Seventy million cups tea used daily in United States.  
One hundred and seventy million cups of coffee and tea.  
Even an average of half a teaspoonful of sugar per cup is left undissolved at the bottom of cups of tea and coffee. The waste would be 1,700,000 pounds of sugar daily.  
Six year sugar until it dissolves. It's estimated that one-third to one-half of all sugars used in homes is used in tea and coffee. Think it over—how is it in your home? Isn't there a chance for saving?"

From New York Times  
Sunday, September 23, 1918.

## DIDN'T GET SCRATCH

Layton Youth Writes Mother of Going Over the Top.

"I was over the top once and came through without a scratch," writes Private Charles Morgan, of Company G, 168th Infantry, to his mother, Mrs. Eva Summell, of Layton. The 168th is a part of the Rainbow Division.

"They are a fine bunch of fellows," says Morgan. "One of our men was killed and eight were slightly wounded. You should see the Germans run. The battle lasted two days. We took 2,000 prisoners. The way things look now it will soon be over and we will come marching home to stay. We are camping now in our pup tents in a woods in No Man's Land. Well, mother, one thing sure, I am with a fine bunch of fellows. They have the name of never knowing retreat. They surely know how to fight. Well, mother, only trust in the Lord and everything will come out all right in the end." Morgan says he has not received a letter since getting to France.

## FIRST ARRESTS MADE

Dr. Royer Follows Up Threat Against Pittsburgh Film Ban Violators.  
By Associated Press.  
PITTSBURGH, Nov. 5.—The first arrests for violation of the state health department's anti-congregating order were made this afternoon following the filing of informations against the managers of 10 theaters and motion picture houses and one saloon keeper. The informations charging misdemeanor were made before Alderman George S. Wilson.

Alderman Wilson said the defendants would be released on \$500 bail to appear for a hearing at 9 o'clock Thursday morning.

## CORP. NIXON KILLED

Fairchance Young Man Meets Death in Action in France.  
Corporal William Nixon, of Company D, 319th Infantry, was killed in action in France about October 3, according to a letter received from Brigadier General Frank S. Cochen, former commander of the regiment, to the corporal's father, Samuel Nixon, superintendent of the United Fire Brick company's plant at Fairchance.

Nixon is a brother of Dr. Nixon of Rovery and Mrs. Mary Jackson, Belle, Lillian, Margaret and Edgar Nixon of Fairchance.

Grant Myers Recovered.  
Grant Myers is able to be out again after a two weeks' illness with the influenza.

## Pollishing Too Highly.

"When did you study elocution?" "Elocution" echoed Senator Sorghum. "I never studied it."

"Would it not have helped your oratorical style?"

"Maybe. But it would have done away with the little off-hand mistake that help to convince a crowd that a man is speaking straight from the heart and not trying to beguile the senses with studied eloquence."

A Father's Disappointment.  
"That was a fine letter Josh wrote home," commented Mrs. Courtessell. "Every line of it was just as grammatical as it could be."

"That's what worries me," replied her husband. "He has spelled his style. I thought at first he was going to have a great future as one of those natural-born comical dialect writers."

Hours of Relaxation.  
"The neighbors object to your running the lawnmower at 6 o'clock in the morning," said Mrs. Crosslots. "Which neighbors?" asked her husband.

"The ones who play the phonograph till 2 o'clock in the morning."

In the Botanical Gardens.  
Mrs. Flatbush—What's this? Mr. Flatbush—Oh, that's a rubber plant.

"I suppose it comes from the frigid north?"

"Oh, no, dear; that's not one of the arctic rubber plants."

What He'd Say.  
"How old would you say she is?" "Twenty-four."

"She's older than that."

"I know it, but I wouldn't offend her by saying so."

## DOCTOR GIVES RECIPE FOR GRAY HAIR

Well Known New York Physician Gives Recipe for a Home-Made Gray Hair Remedy.

A. L. Paulson, M. D., who has practiced medicine in New York City for many years, gave out the following recipe for a home-made gray hair remedy: "Gray, streaked or faded hair can be immediately turned black, brown or light brown, whichever shade you desire, by the following simple remedy that you can make at home:

"Merely get a small box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

"You need not hesitate to use Orlex as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives.

"It does not rub off, is not sticky or greasy and leaves the hair fluffy. It will make a gray haired person look twenty years younger."—Adv.

### BETTER TIMES THERE

Fred McNamara Prefers Life in France to Conneltsville Just Now

For some, life in France is preferable to that in the States. One who writes in this vein is Fred L. McNamara of Company 1, 47th Infantry (Regulars). In a letter to Mrs. J. L. Mansberry of Queen street he says:

"How are you all getting along? Tell Dad I had the job he had when he was in the army as scout and I know just what it is like. I am in a base hospital with a shrapnel wound in my hand and a bruised leg. I am all right now, and will be out soon to go back with my company.

"Well the Pennsylvania boys showed old Jerry they can fight. I passed Company D, 110th, but could not see anything of Lawrence (Mansberry). I did not have time to look him up for I was in an automobile and you can't just stop and talk when you want to. I surely would like to see 'Mum' and I am going to try and see him if I can, but it is like hunting for some-

### HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

## MOLD YOUR LIBERTY BONDS.

The holder of a Liberty bond ought  
to resist every temptation to part  
with it. A lot of shrewd and unscrupu-  
lous persons are already busy in certain  
sections of the country attempting to  
induce bondholders to sell their bonds  
at prices below their real value. Others,  
acting as promoters of "wildcat"  
corporations of various kinds, will offer  
to exchange the worthless bonds of these  
corporations for Liberty bonds, or urge the holders  
to put up their bonds as security for  
the payment of stock subscriptions. These  
are merely clever schemes to obtain  
bonds in exchange for stock, which has  
no value and never will be worth the  
paper it is printed upon.

Every holder of a Liberty bond who  
is approached by such a promoter  
should consult an officer of a bank  
before yielding to the temptation to  
surrender his government security for  
one of doubtful value. A Liberty bond  
is the safest investment in the  
world, and a prudent man will very  
carefully investigate any effort to  
induce him to "exchange" it for a less  
safe investment.

United States government bonds in  
the past have gone above par, as high  
as \$139 for a \$100 4 per cent bond.  
That Liberty bonds will go well above  
par when peace comes is very prob-  
able. Holding one's Liberty bonds,  
therefore, is wise as well as patriotic.

## THESE KAMERAD CALLS.

Hardly had the message been flashed  
around the world that America had  
met the greatest financial demand in  
world history than Germany began in-  
sistently to "renew" her "Kamerad  
calls"—her peace overtures.

The moment it became known that  
the Fourth Liberty loan would be met  
Germany's financial position was in-  
stantly changed. She played to the world  
before it reached President Wilson.

She played to the galleries; and in  
very poor form. Put up her bloody  
hands once more in a pretended will-  
ingness to negotiate a peace upon the  
lines the President had laid down  
months before; but kept right on  
devastating the country over which  
her beaten armies were retreating.

Persisted in the program of frightful-  
ness which has been hers from the  
moment she first crossed the Belgian  
border line. Kept on playing the Hun  
game!

Americans must not permit them-  
selves to be deceived by these German  
advances. They must not take them  
too seriously. Germany is playing a  
double game as usual. Playing for  
time, primarily. But more than all  
is she seeking to impress the world  
at large with her willingness to quit;  
make it appear that further continuan-  
ce of the war is on the head of the  
Allies, which has been her dominating  
plan from the outset.

Germany is just as deceitful, just as  
tricky, just as treacherous as when  
she first began planning for "de Tag."  
Just as big a wolf in sheep's clothing.  
Just as willing to "knife" the world  
from behind.

America has voiced her determina-  
tion to wipe out Prussianism. She  
must stand pat. This second army  
must go forward as planned. It must  
be financed according to schedule.  
There must be no halting, no hesita-  
tion, no delay.

Whether it means months or years,  
whether it means one more Liberty  
loan or half a dozen, whether it means  
much or little of sacrifice for us all,  
for the burden of world peace is upon  
America more than all the world.

No surprise that Pennsylvania's  
rolled up a majority of 250,000 for Sproul  
when it is recalled that the Imperial  
Commonwealth has at least that num-  
ber of men maintaining the honor of  
the state and nation on the fields of  
France.

The ticket splitters did not count  
as much splitters as they fancied they  
would.

And the "Frosty Senses" stated by  
their guns.

Pennsylvania voters did not re-  
pudiate Woodrow Wilson, president of  
the United States at yesterday's elec-  
tion but they did rebuke Woodrow  
Wilson, dictator-in-chief of the Demo-  
cratic party.

The campaign is finished and done.  
Now down to the business of finishing  
the Hun.

Who spilled the beans? Who pause  
for a Democrat to reply.

The effectiveness of the straight  
vote was never better proven than  
yesterday.

The ban on Republican representa-  
tion in Congress has been lifted.

The colored promiscuity of S-sauger-  
town never wavered under the bar-  
rage of the enemy's guns, b. & k.  
little.

If Boninwell had only been over the  
line in Ohio he might have faced bet-  
ter.

RESULTS OF REMOVING  
THE SHACKLES  
FROM THE RAILROADS.

It is claimed by the advocates of  
federal railroad control that great im-  
provements have been inaugurated  
during the eight months that the roads  
have been separated from private  
management. Among them are cited  
the following:

Increased demurrage charges have  
cleared the freight yards of conges-  
tion, and cars pass through them  
much more expeditiously than before.  
Circuitous routes have been elimi-  
nated, with the result that car mil-  
age has been reduced.

Existing equipment has been over-  
hauled and repaired and much new  
equipment ordered.

Consolidation of ticket offices has  
reduced rent charges.

Wage increases have improved the  
labor situation.

Let us admit for a moment for the  
sake of argument, that these improve-  
ments have been made, and that they  
are beneficial to the traveling public,  
the shippers, and the railroads, what  
may be their effect on the federal  
Treasury? Should those changes be  
credited to more efficient methods of  
operation that the administration has  
brought into practice, or are they due  
to the power possessed by federal au-  
thority to sweep aside all restrictions  
of national and state statutes against  
which the private owners of the roads  
had to contend?

Under private management the  
roads could not make an increase in  
freight or passenger rates until after  
long hearings before the Interstate  
Commerce commission. The most re-  
cent case was the application of the  
roads for a 15 per cent rate in freight  
rates. After a year's proceedings be-  
fore the commission they were finally  
allowed a five per cent increase. But  
Mr. McAdoo, with one stroke of the  
pen, raised passenger fares 50 per  
cent and freight rates 25 per cent.

Combinations of railroads with each  
other or with steamship lines, or rate  
agreements among them, were ex-  
pressly prohibited by statute. By the  
passage of the railroad control act all  
of the lines were merged into one gi-  
gantic system, competition was en-  
tirely eliminated, and it is now pos-  
sible to shorten routes and reduce car  
and train mileage.

By the exercise of the same power  
ticket offices have been consolidated.  
Had they been permitted to do so,  
private owners would have effected  
such consolidations long ago, and we  
would have seen sufficient clerks in  
those offices to care for the wants of  
patrons, which is far from the case at  
present.

Increased demurrage charges have  
been made possible in the same way  
that increases have been granted to  
passenger and freight rates. Of course  
with similar authority to draw upon,  
the results achieved have come quite  
as surely under private management  
as under federal control.

Under the terms of government op-  
eration act, \$500,000,000 is placed to  
the credit of Mr. McAdoo to use as he  
wishes to increase the efficiency of  
the roads. From these millions have  
come the appropriations to pay for the  
increase in rolling stock. If that enor-  
mous amount had been placed by the  
government at the disposal of private  
owners the new cars and engines  
would have been forthcoming; but, un-  
der conditions as they were, manage-  
ments had to give due regard to the  
financial conditions of their roads, and  
conform their expenditures to their  
resources.

In the same arbitrary way wage in-  
creases have been granted, with no  
thought as to whether the income of  
the roads themselves warranted that  
action, but with full reliance upon the  
national treasury to make good any  
losses that might develop. During the  
first eight months under government  
control the Treasury had advanced  
\$200,000,000 more to the railroads  
than has been received in operating  
revenue.

In short, any betterments that may  
have come in railroad operation un-  
der federal management would have  
followed just as surely under private  
control had the owners been possess-  
ed of the unlimited authority so freely  
used by the government.

## Boy Breaks Leg.

While playing football yesterday af-  
ternoon in the West Side, Eugene Him-  
mer, 15 years old, son of Mr. and Mrs.  
Frank Himmer of Eighth street, Green-  
wood, suffered a simple fracture of the  
right leg above the knee. The injured  
boy was removed to his home and a  
physician was immediately summoned.  
Later he was admitted to the Cottage  
State hospital.

## SYMPATHIZING WITH SHEP.

"Dear Dad," he wrote, "I'm here in  
France  
and shelling in each tank advanced.  
We're driving back the filthy Hun.  
The Heinies now are on the run,  
And I am well and strong tonight,  
Except for little things that bite."

"Do you recall those happy days  
we sat before the log fire's blaze  
Within our little parlor, snug,  
With Sheep asleep upon the rug,  
And heard the clock tick on the shelf  
Except when Sheep would scratch him-  
self?"

"And there were times, with sudden  
snaps,  
He'd bite himself upon the hip,  
Then turn his head in manner queer  
To scratch himself behind the ear,  
Then, like the whirling of a male,  
Get up and madly chase his tail."

"Well, Dad, I do not want to brag,  
But since in France I serve the Flag,  
I'll say, in running down a Hun,  
Sheep never had a thing on me!  
In fact I think I've learned to do  
Some twists our old dog never knew."

"We used to scold and put him out,  
We would not let him stay about  
When he began to thump the floor.  
But, oh, when I get home once more,  
I'll let Sheep scratch the evening  
through."

"Because, you see, I've had 'em, too!"

## Athletic Work In Army Camps Making Two-Fisted Fighters of Pale City Boys

James Clark, Marathon Winner and Holder of Many Long Distance Records, Now Physical Director at Camp Upton, Says New York Soldiers Will Be Better Men After the War, Because of Training Received There—Urges Support of \$170,500,000 United War Work Campaign.

By JAMES CLARK

(First Winner of Brooklyn-Seagale Marathon, Holder of Many Long Distance Amateur Records and Y. M. C. A. Physical Director at Camp Upton.)

NEW YORK'S soldier boys who went to Camp Upton are going to be better men after the war, because of the physical training received there. It has been wonderful to watch them develop, to see the pale office worker become the bronzed fighting man—the fellow with a punch.

To work with the army officers in getting our men in the proper physical condition for the great task before them is only one of many things that has to be done, but it is of supreme importance. Therefore it was with a great deal of pride that I found myself selected to represent the Y. M. C. A. in this particular work. If any successes has attended my individual efforts, it has been due mainly to the ready response of the boys themselves and the whole-hearted support of the regimental officers who appreciate the efforts of the "Y."

The games taught by the physical directors provided by these organizations in which nearly every American should contribute to this fund.

JAMES CLARK

the groundwork of a training which increases their confidence and develops their instinct to act quickly under trying conditions. A good boxer, a good wrestler, a good ball player, a good runner, a man who is proficient in any line of athletics, makes a better soldier than the man who is content to watch others compete. The spirit of competition is a great enlivener. I have received from former Camp Upton boys who are now at the front the best proof of the value of systematic physical training. One in particular, from one of our old artillery boys, says that the work by the "Y." the K. of C. and the Jewish Welfare Board, athletic and otherwise, keeps the soldier's time occupied so pleasantly that home-sickness is banished and the morale of the army is excellent. They don't have time to mope.

Every phase of the work is so appealing in this great crisis that I wish it were possible to reach every big man in the country and place him as a worker in the camps here and overseas. They would be helping themselves as well as the boys. Unless a man is the right sort he doesn't get very far with the man in the ranks.

## SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. To wash from the liver and bowels the previous day's indigestible toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate is inexpensive; any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

## COAL PYRITE IN EXPLOSIVES

Iowa Geologists Investigate Coal Fields for Needed Mineral, With Excellent Results.

An investigation of pyrite, an essential material in the manufacture of high explosives, is being made in the coal fields of Iowa under the direction of Dean George F. Kay of the University of Iowa, who is director of the Iowa geological survey. High explosives are made with the aid of sulphuric acid, which in turn is made chiefly by roasting pyrite, popularly known as "fool's gold." Hence the mineral is in great demand.

For many years pyrite for acid production has been imported from Spain, states Doctor Kay. But in order to save the ships for more urgent uses, the shipping board has sharply reduced the import of pyrite. The domestic production of the mineral must then be unusually large, he declares.

New York, Virginia, Georgia, South Carolina and Alabama have pyrite mines, and Illinois and several other states are producing a small tonnage from coal mines. Many hundred thousand tons are quickly available from coal mines, says the state geologist. If the government's explosive program requires it.

The method of preparing coal pyrite for shipment to acid plants is simple and cheap. The "sulphur balls" must be separated from adhering coal, and be crushed, washed and screened into lump and fine sizes. Coal miners are willing to load pyrite, and the operators to hoist and ship it, if war industries demand it.

## Just One More Question.

"Do you happen to be going to a sir?" said the inquisitive traveler to the man in the corner, after having reduced everyone else in the compartment to silent frenzy.

"Oh, no, only to Scotland," replied the other, sarcastically. "I am a commercial traveler. My age is forty-six. I am married. My name is Thomas Brown. I have a son of nineteen. He is in the Blackshire Buffs. My father died last July. He was on the stock exchange. My mother is still living. I have a niece with red hair. Our church lady's name is June Briggs. Is there anything else?"

The inquisitive man hesitated. "What do you use for your toothbrush?" he inquired slowly.—London Times.

## Boy Scouts Find Black Walnut

About 15,000,000 feet of black walnut timber has been located and its exportation reported to the forest service by the boy scouts since they were called upon by the president to assist the government in locating this timber for gunstock and propeller material. The boy scouts send the reports to the forest service, where the information is compiled, and then forwarded to the war department. The government itself is not buying the walnut, but sends out the information to manufacturers working on government contracts.

## Transferring the Bad Luck

A visitor on a British battleship was dining with a group of officers when his fork accidentally struck a glass tumbler. As the glass resounded the officers shouted as one man, "Boche." On asking for an explanation the visitor was told that the ringing of a glass meant bad luck. One officer declared that on one ship he formerly commanded every time a glass was rung a man fell overboard. This is why officers now cry "Boche" when a table accident occurs, they hoping to transfer their bad luck to the enemy.

## One Way of Looking at It

His captain told me this story about him. A shell had just exploded near him and his right arm hung in shreds. Immediate amputation was necessary. When he came to, he looked around and waved his bandaged stump. "Well, anyway," he said, "here's a ticket to the States!"

## IMMY DARR WRITES OF DANGERS BOYS FACE IN FRANCE

Carrying Wounded of 110th Medical Detachment Perilous Business, Even After Dark.

Writing to Edwin Keagy of this city, James Darr, a member of the 110th Medical Detachment, tells of having to dodge machine gun bullets while crossing the streets of Fismes when carrying patients to the 110th dressing station. The letter was written on September 25. It says in part:

"Just received your letter. The nerve of you to suggest that I sneak out into No Man's Land and get you a souvenir. I might have a few myself before getting back. However, I have lots of them if I could only send them home. We got a German plane several weeks ago. It dropped back of our lines. An ambulance driver and myself tried to get some things off it but there was nothing loose. "I have a German rifle bullet which landed near one of our boys. It comes from Fismes. "We had our dressing station in one end of a little village near Fismes. The Germans held one end of it and we another. They had a machine gun hidden somewhere so they could shoot straight out the main street. I wish you were along when we would try to cross that street after dark with patients. Will close now and write soon again as I think business will be booming in a few days from now." Accompanying the letter was a German steel rifle bullet and a small French coin.

## CZECHO-SLOVAKS TO TAKE CENSUS OF THE COUNTY

Object is to Get in Touch With All of Nationally and Learn if They Bought Bonds.

The Fayette County District assembly of the Slovak League has decided to take a census of all the Czechs and Slovaks residing in Fayette county. One reason for this is to get in touch with the people, and find out if they contributed well enough toward the Fourth Liberty Loan. This census will be started as soon as the books and other necessary arrangements are made.

titles are ready. Some of the questions to be asked are: "Are you a citizen of the U. S.?" "Have you your first papers?" "Are you a member of the Slovak League?" "Have you bonds of the Fourth Liberty Loan; for what amount?" "Have you contributed toward the liberation of your nation?" "Have you contributed to the American Red Cross; to what amount?" Since this is needed and very important, the people should be a help to the committees when they arrive and be ready. The office of the Slovak League is at 79 West Main street, Elmington, from which all the work will be directed by Edward Kovac, the president. This is also the recruiting office of the Czech-Slovak army.

## RUB OUT WRINKLES KEEP SKIN CLEAR

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara when this pure skin cream is used.

## WAR EXPOSITION IN PITTSBURG WILL BE INTERESTING EVENT

Will Present a Marvelous Collection of the Engines Used on the Battlefields of Europe.

With the close of election activities, all interest in Western Pennsylvania, Eastern Ohio and Northern West Virginia centers in the great American and Allied War Exposition, which will be held in the Western Pennsylvania Exposition building at Pittsburgh, starting Thanksgiving Day, November 28, and continuing for eleven days. That thousands of persons from all sections of the tri-state region will attend the exposition is indicated by communications reaching headquarters from many cities and towns to the effect that the public has been

stirred as never before.

The War Exposition is one of the greatest, biggest and best exhibitions of war materials ever assembled in the history of the world. From the smallest article used in warfare, to the mammoth "Berthas" and naval guns, the display is complete, and the millions of people of the country who have already viewed the spectacle are unanimous of the opinion that it is a sight presented but once in a lifetime.

The residents of this community will undoubtedly take advantage of the opportunity and make the trip to Pittsburgh during the eleven day stay of the exposition. The admission price will be nominal, and the general committee in charge is of the opinion that record crowds from the Tri-state region will be on hand.

That the War Exposition, in addition to being entertaining is also educational, is pointed out by the government of the United States, from which source comes the request that each and every citizen within traveling distance of the exhibit make a special effort to see the far-famed display.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for Calomel.

Dr. Edwards, a practicing physician for 17 years and Calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them into unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

## Ostrich Ways.

It is no uncommon thing to see a male ostrich strutting about followed by three or four distinct broods, all of different sizes. When the incubating process is completed the cock bird leads his young ones off and, if he meets another proud papa, engages in a terrific combat with him. The vanquished bird retires without a single chick, while the other, surrounded by the two broods, walks away triumphantly.

## To Avoid and Relieve Influenza

BY DR. FRANKLIN DUANE

Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups, and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating laxative as Dr. Pierce's Pleasant Pills. Drink principally of hot lemonade and then cover up with plenty of clothing in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Auricle Tablets every four hours, followed by drinking at least a glass or two of hot water. Auricle Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and brings on the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength, insist that he keep in bed at least two days. Probably nothing will aid this stage better than the recovery and strengthening of the patient more than an iron-tonic tablet called "Ironite" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery. Quack has been used by thousands in the past two generations.—Adv.

## FRED TENNEY TALKS OF WORLD SERIES

Aroused by Play Made by Hollocher in Boston Game.

Former First Baseman Cannot See Why Runner Doesn't Try for Second Base When Catcher Tries to Get Him at First.

Fred Tenney, greatest of first basemen in his time, cannot see why base runners, when a catcher tries to pinch them off first with a snap throw, do not immediately light out for second base, like Charlie Hollocher of the Cubs did in the second world series game in Boston. That contest was the first title game Tenney ever had seen. The play on Hollocher turned the complexion of the game and brought from Tenney the information that there isn't a chance in a hundred for a first baseman to get the ball to second in time to stop the runner if the runner goes ahead.

"Players used to pull that play a lot," says Tenney. "Why, one of the men who pulled it on me was Jim McGuire, who was able, I guess, to navigate the circuit in some 40 or 50 seconds. I got a perfect throw from the catcher to nip Jim off the bag, made a stab for him and hit the dirt, like McGuire did when he groped around for Hollocher. McGuire was on second by the time it dawned on me he wasn't on first."

"It is hard for a first baseman to stop this play, as he has to reverse

Fred Tenney.

himself just as a base runner does who is set to go one way and then has to go the other. It is not only hard, it is almost impossible. Strikes me that the players ought to offer to go on instead of back."

Fred is now living in Winthrop, Mass. He is a grandparent at the age of forty-six. Since managing the Newark Internationals in 1916 Tenney hasn't had any baseball connection, nor has he desired any. His success in the business Johnny Evers was a sliver in—boots and shoes.

## FINK STILL FULL OF FIGHT

Wounded Baseball Writer Has Fingers Enough to Pull a Trigger and Work Typewriter.

Harry Fink, the first baseball writer to be wounded in the war, is in New York, having just returned from France, minus half of one finger and with three others crushed. The ship on which he was going to Europe was stopped and torpedoed by a submarine. The "sub" captain ordered someone who spoke German to come to the "sub," and Fink was unfortunate enough to be the one. He was compelled to jump from a boat to the sub, and in jumping his hand was caught between the two boats and crushed. He tried to talk the German captain out of his submarine, but finally was ordered back into his boat, and for a long time the craft drifted, with Harry weakening from loss of blood, a tourniquet applied by the Germans alone preventing him from bleeding to death. Then the boat was picked up by a destroyer and Fink was given proper attention. He returned recently and now is in a naval hospital, but declares he has enough fingers left to hammer a typewriter and plenty to fight the Germans.

## ASK FOR 2-YEAR-OLD RACES

Request Made by Thoroughbred Association of United States—Red Cross Fund Paid.

The Thoroughbred Horse Breeders' association, with members all over the United States and Canada, will request the Havana and New Orleans racing associations to announce races for two-year-olds after January 1st, provided they are assured of sufficient interest of that age to justify arranging such events.

President A. B. Hunsack said that \$25,000 of the \$100,000 to be raised by breeders of the Thoroughbreds as their part of the \$200,000 pledged by Kentucky racing and breeding interests to the Red Cross has been paid.

## GEORGES CARPENTIER WOULD MEET JESS WILLARD OR JACK DEMPSEY IN AMERICA

French Champion Boxing for Benefit of Soldiers.

Georges Carpentier, the greatest of French boxers and European heavyweight champion, who has added to the fame he gained as a ring man by his exploits in the world war, is anxious to return to the squared circle and would like to meet Jack Dempsey or Jess Willard. Information to this effect is contained in a letter written by Victor Breyer, the French sportsman and journalist.

"Of late I have noticed in some of the American journals that Carpentier had made up his mind to retire from the game," says Breyer. "I have seen a great deal of the young man lately and I can assure you it is all a mistake. He is in splendid health now, in fact, since he entered the Johnnie military school of physical training he is transformed and was never better."

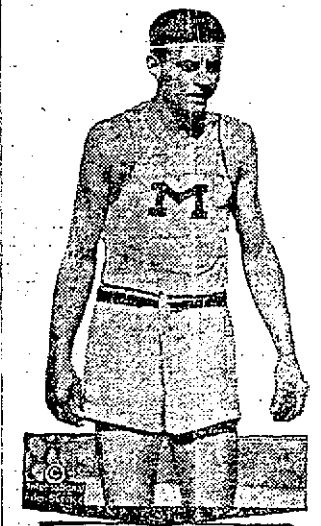

"His one desire now is to see the war finished, so that he may start again, and he is quite eager about it. At present he is giving quite a number of exhibition bouts all over the country, especially in the American camps, where he is very popular. He is heavier and would welcome a match with any of the big stars of the game when the war is over. There are fine boxers and Carpentier is not overlooking any chance to improve his own style."

"Sparrow" Robertson, now in France as a physical director for the Y. M. C. A., recently wrote to the effect that Carpentier was in fine condition and would welcome an opportunity to come to this country. Breyer's letter, therefore, confirms the report sent by Robertson.

## ARMY LIFE TRAINS HURLER

Bob Simpson's Case is an Exception, According to Views of an Eastern Sport Critic.

Bob Simpson, the world's greatest hurdler, is said to have demonstrated that army training in itself is practically sufficient to keep a man in shape to do himself justice in any specialty he may have in athletics. Lieutenant Simpson, after a layoff of five months from athletics, went over the high sticks, without preparation, inside of a second of his world's record of 14.3-5. The chances are, writes an Eastern

Bob Simpson.

sports critic, that Simpson is an exception and that his theory would not apply to the great majority of athletes in the service. There are plenty of examples to the contrary, where well-known athletes, like Ted Meredith, Tommy Lannon and others, have increased in weight since enlisting for war and have consequently slowed down as runners.

## SAYS TEN-HERBS IN POINT OF INTEREST NEXT TO GREAT WAR

Sensational Statement Made By the Representative of the Ten-Herb Medicine.

In an interview recently with the Ten-Herbs expert, he gave the following characteristic statement:

"The medical fad of today is Ten-Herbs, the new strength builder. In fact, aside from the great war, the discovery of Ten-Herbs and the possibilities offered by it in the treatment of disease, is one of the most talked of subjects in the Nation at the present time."

"Don't grow old before your time. Don't let nervousness wreck your happiness or chances in life. The man or woman with strong, steady nerves is full of vigor, energy, ambition and confidence."

"You can have nerves of steel, a firm step, new courage and a keen mind, by putting your blood and nerves in first-class shape by the use of the new medical discovery, Ten-Herbs, which is inexpensive and efficient."

"Men and women who get up so tired in the morning that they have to drag themselves in their daily labor, will find that in just a few days they will arise with clear mind, definite purpose and loads of ambition."

"To secure these wonderful results all that is necessary is to take Ten-Herbs, which is a combination of ten of Nature's life-giving herbs which are essential to health, thereby imparting to the sufferer renewed life and hope, and your energy and endurance will be doubled, your mind becomes keener, your eyes brighter, and you will feel twice as ambitious as before."

Ten-Herbs is sold in Connelville at the Connelville Drug Co.'s Store.

## SAW SOME GOOD IN GERMANS

Mark Twain Would Not Admit That All Manhood in the Land of the Hun Was Dead.

Probably no other foreigner has ever been so popular in Germany as the American philosopher, Mark Twain; yet Mark understood his German, just as he understood Russia, although of the czar's dominions he had only the tripper's knowledge he picked up with the shipload of pre-Cook's tourists that he immortalized in "Innocents Abroad."

In his "Connecticut Yankee in King Arthur's Court," Twain wrote: "There it was, you see. A man is a man, at bottom. Whole ages of abuse and oppression cannot crush the manhood clear out of him. Whoever thinks it a mistake is himself mistaken. Yes, there is plenty of good enough material for a republic in the most degraded people that ever existed—even the Russians; plenty of manhood in them—even the Germans—if one could but force it out of its timid and suspicious privacy; to overthrow and trample in the mud any throne that ever was set up and any nobility that ever supported it. We should see certain things yet let us hope and believe. First, a modified monarchy. (All Arthur's days were done, then the destruction of the throne, nobility abolished, every member of it hanged out to some useful trade, universal suffrage instituted, and the whole government placed in the hands of men and women of the nation, there to remain. Yes, there was no occasion to give up my dream yet a while."

An Awful Disease. A friend of mine in one of the camps is a corporal. The occupants of the barracks across the road and here in quarantine for measles. Occasionally one of the men was moved to the hospital. My friend was stricken with a severe case of tonsillitis and one morning the ambulance stopped to take him to the base hospital.

## TURKEYS' PART IN FOOD SAVING

Sound Economy Not to Market  
Fowls Too Early.

PUT ON WEIGHT IN FALL

No Hens Dressing Under Six Pounds  
Nor Gobblers Under Eight Should  
Be Killed

The turkey is still a wild fowl. All of the efforts of the farmer and breeder have failed to domesticate this wanderer into a faraway dependent that puts on fat at the whim of the owner. A chicken will put feed in its fat at any age and at any time the crop is kept filled with the right kind of feed.

The young turkey, however, is a long-legged, but not a fat bird. The farmer for the sake of the market is put on and nature suggests that it is time to set it in a reserve for a season or two. Turkeys will put on weight in the fall and economically at this season and fowls should not be dressed at this time.

It is too soon to set the birds for the market. The farmer should wait until the birds are well grown and then set them for the market.

Striking Weight Come Reasons

## NEW RECORDS for your TALKING MACHINE

Isauro Stracchini Baklanoff—three of the world's greatest and best-sold records of Columbia artists who make new records for November.

And what glorious records they are! Lemuro fittingly called the tenor of the generation, sings that magical burst of passion in the first set of Ruyetito—the Duke's rarest. Onesta Onella Baklanoff, greatest of Russian baritone, offers the hitting "Fishes" song from "Giacinta" while Stracchini turns to his favorite opera, for an aria of rare brilliance and powerful dramatic feeling—the "Pari" scene from "Tosca". Truly here are three records no phonograph owner can afford to be without.

Then come the two sopranos whose voices were the sensations among last season's debuts. Lascarska and Barbara Mauer. The former sings a gem of purest melody, "A Gaily Dressed Baby," with our charming, Alstman, for a gem of purest melody. The latter sings the "Pari" scene from "Tosca". hands of the Hawaiian Trio, it is a masterpiece.

Then there is a wonderful bit of chamber music by a Violin, Flute and Harp Trio—"Flower Song" and "Sweet Longing"—played with the rare beauty that only such instruments can achieve.

The famous Serbian "Lambouras" Orchestra that is making such a stir in this country makes another of those haunting exotic records of Serbian melodies which are proving so popular with phonograph owners and dancers alike.

Among the popular songs Columbia has a number of the newest Broadway hits, both war songs and sentimental. One of the best, of course, is Irving Berlin's "How I Hate to Get Up in the Morning." Another is "Smiles" that reminds us of the melody that is sweeping the country.

George Macfarlane, prince of vaudeville entertainers, makes his Columbia bow this month. His popular comedian sings in his own rich voice the song "You Come Back, and You'll Come Back." It is a record you want to own, as you wouldn't miss hearing George himself when he came to town.

Henry Burr and the Broadway Quartet sing "Come Along Ma Honey." Sterling Trio in "Pickaninny Blues." Charles Harrison's rich tenor in "Dear Little Boy of Mine." Hugh Donovan singing the great Allied war song "Ode for All and All for Ode," with Arthur Fiedler's grand piano.

Then there are dance records galore, as you would expect on a Columbia list. Lockers Brothers play "Mama's Blues" and "Sons-a-Shape." Wilbur Sweatman's Original Jazz organization symphonies, "Oh You La Le," "Princess's Orchestra," contribute to a dreamy waltz and the famous U.S. Army band, while "Papa's Blues" and "Papa's Blues" are the latest in the series.

## LITTLE TALKS ON THRIFT

By S. W. STRALS  
President American Society for Thrift

It is a well-known fact that the average American is a thrifty man. He is a man who knows the value of a dollar and he is a man who knows the value of a penny. He is a man who knows the value of a dollar and he is a man who knows the value of a penny.

## ENGLISH NOT POPULAR

PORTO RICANS EXPRESS PREFERENCE FOR SPANISH TONGUE

House of Delegates Has Put Itself on Record in the Matter in a Way That There Can Be No Misunderstanding.

Letters and telegrams from San Juan, Porto Rico, indicate that among the most important of the problems in that island possession, with which President Wilson soon will have to deal, and in which he will be interested of both as chief executive and as an educator is the fight now being made by the Unionist party there to force the teaching of the English language into the background of the education of the island.

The Porto Rico house of delegates which is solidly Porto Rican in membership has just passed unanimously a bill which reads:

It is hereby ordered that the Spanish language be exclusively used in the graded schools of Porto Rico in all recitations and exercises provided however that the English language be taught as a preferred subject in all grades.

In most of the schools the second clause would be necessarily inoperative because of the fact that the majority of the native teachers—and the island—do not understand the English language and hence cannot teach it. And even if they could the devoting of a limited period of each day would accomplish little, especially as most of the children do not care to learn English. Proof of this discrimination is shown in the fact that outside of their classes, the pupils rarely make even an attempt to speak English.

Defending the measure against a storm of criticism by Americans in Porto Rico, Antonio Barcelo, president of the Unionist party, has issued a public statement attacking those who

oppose the bill. Senator Barcelo is the personal representative of Luis Munoz Rivera, delegate from Porto Rico to Washington. He says in part:

The whole country is defending through us the language of our native land. Perhaps you will find some new Porto Ricans willing to forget what they are and even the language of their mothers. They will rather in the best English imaginable they will speak of how contented they live under this regime.

After lower house was never so true to itself and to the people it represented as when it approved on that happy occasion the bill referred to. The action of the house is full of significance. It means that Porto Rico wants to be Porto Rican. It means that the language of our forefathers must be kept in all its purity never to disappear. We want our children to learn but in the language they learned to say their first prayer to God in which they understood the first loving words of their mothers.

We are defending the language of our homes. We love our country small and weak as it is here we were born and death will find us here. There is not a single sincere Porto Rican who has failed to approve of our action. The country has learned of it with applause and gladness.

There are other potent reasons for our action which only a blind man will fail to see. The purpose of our schools is not to teach English but to diffuse learning their object is to develop the mental faculties of our children to cultivate their intelligence and educate their character. Language is the only means to reach that end.

The Boastful Fat Man  
Pledge to himself that he is an all round athlete.

"I don't know whether he is an athlete but he is a round all right, and getting rounder every day."

Not Hinderling It  
dearly as I don't let your mistake grow."

Why don't I let it? Good heavens, dear boy I do but it don't."

## TURKISH DEFENSE METHODS IN PALESTINE

This photograph illustrates some of the methods employed by the Turks in their vain efforts to check General Allenby's advance in Palestine. Sharpened stakes were driven into the ground and behind them were steel hoops, ditches and barbed wire entanglements.

Roumanian Tobacco.  
Roumania the dark horse of the Balkans may be said to have been waited into good government on a cloud of tobacco smoke. For it was the tobacco monopoly established by the degenerate ruler, Couza, that brought about his compulsory abdication. Every Roumanian smokes and Couza came up against a national habit—with the usual result. It was in 1866 that the present ruler, Prince Charles of Hohenzollern-Sigmaringen, was invited in the teeth of the opposition of Europe and the Sultan to become Couza's successor and nothing finer ever happened to Roumania—except its queen, Carmen Sylva. But the good fortune of Roumania is also due to Bismarck who counseled the young Prince to accept the offered throne, remarking: "If you fail you will at any rate have a pleasant reminiscence for the rest of your life."

Got It All In  
Florence Reed, appearing in The Painted Woman, relates an incident concerning a well-known politician whose wife and daughter were traveling in France. The husband's knowledge of French was woefully limited and when he was told in a letter from his dear ones that he would find their address printed on the envelope, he patiently copied it word for word.

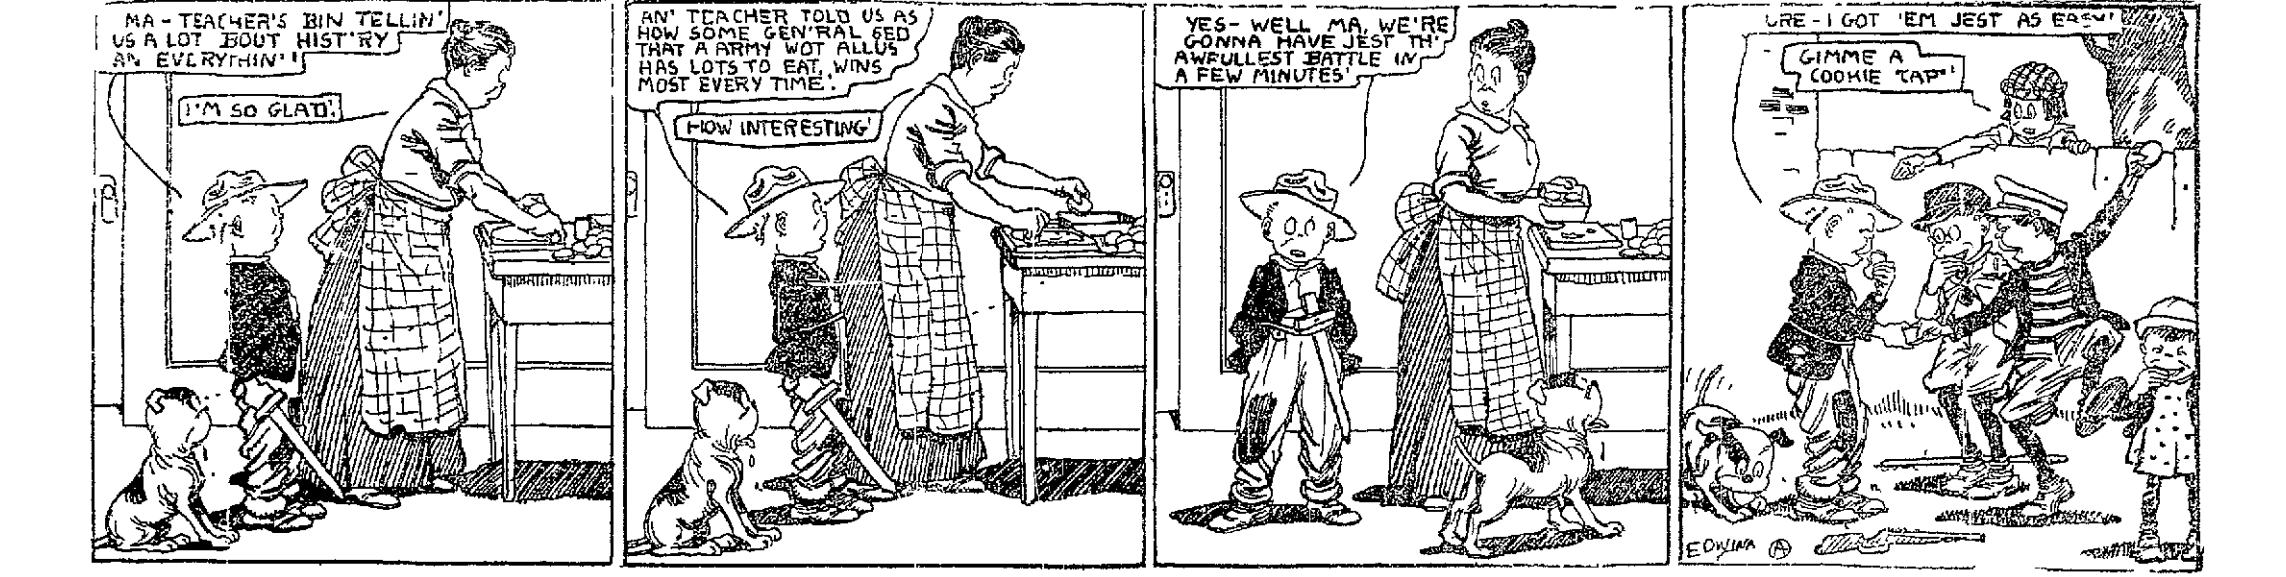

Transmitted into English his missive bore this inscription:  
Madame John Corbin  
Hotel Antoinette  
All rooms light and sunny. Excellent service. Private dining rooms. Suites with bath at moderate rates. Paris, France.

It is needless to say the letter reached its destination—Young's Magazine.

#### Winter Underwear for the Family Should Have Immediate Attention

In most households it is left to someone—mother, generally—to look after the underwear needs of the entire family: to see that each member's wants are supplied and ready when the time comes to change.

This time is likely to be any moment now, and if the proper garments are not ready at the right moment, colds and more serious ills may result.

Worse and Worse.

There is a story in connection with a certain paper which tells how it referred to two learned gentlemen as "bibulous old flies" instead of "bibliophiles." Next morning the editor received a very wrathful protest. In his correction and apology, however, he said something about "the learned gentlemen are too fastidious." To the editor's horror the printer again distinguished himself, and the statement appeared "the learned gentlemen are two fast idiots."

A Pessimist.

The pessimist is a man who wants more of the things of which he has little, and less of the things of which he has much.
